

Click on Forms on the sidebar menu

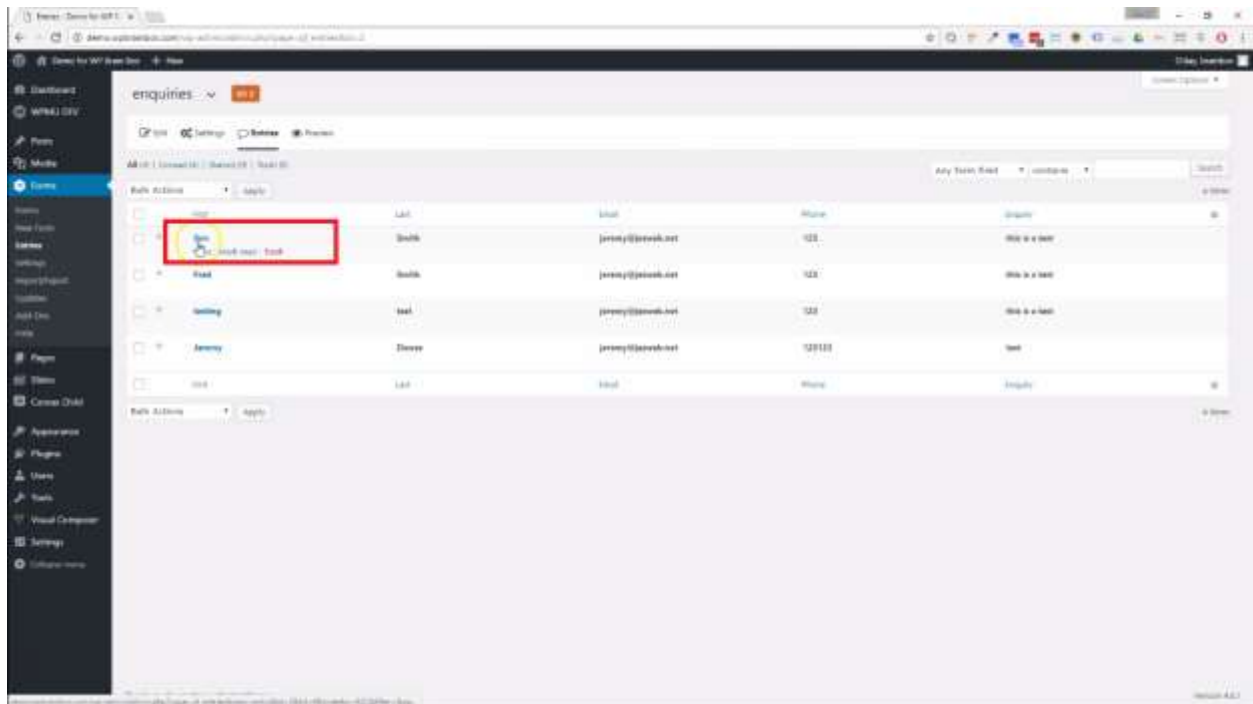

Although the inquiries from the gravity forms are emailed to you, sometimes it's a good thing to be able to check those inquiries directly on WordPress dashboard.

Let's go and check on the entries submitted into our gravity forms. To do that, click on the Forms on the sidebar menu.

Click on the sender's name

As you can see, there are 4 entries in our Inquiry form. If you want to view and respond to these inquiries, you can either click on the sender's name or click on View found under the sender's name.
