

## ADD A BLOCK TO COLUMNS

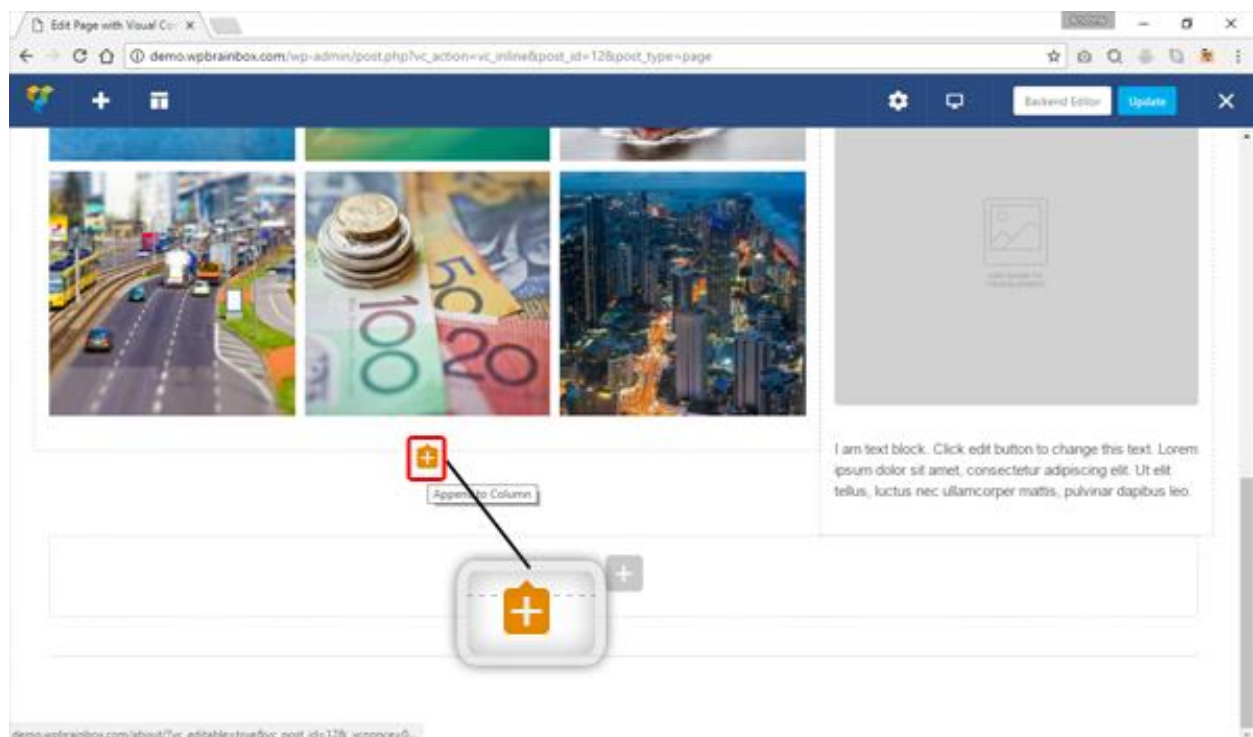

### WITH THE FRONTEND EDITOR OF VISUAL COMPOSER

#### Text Block Element

#### Step 1: Click on Edit with Visual Composer

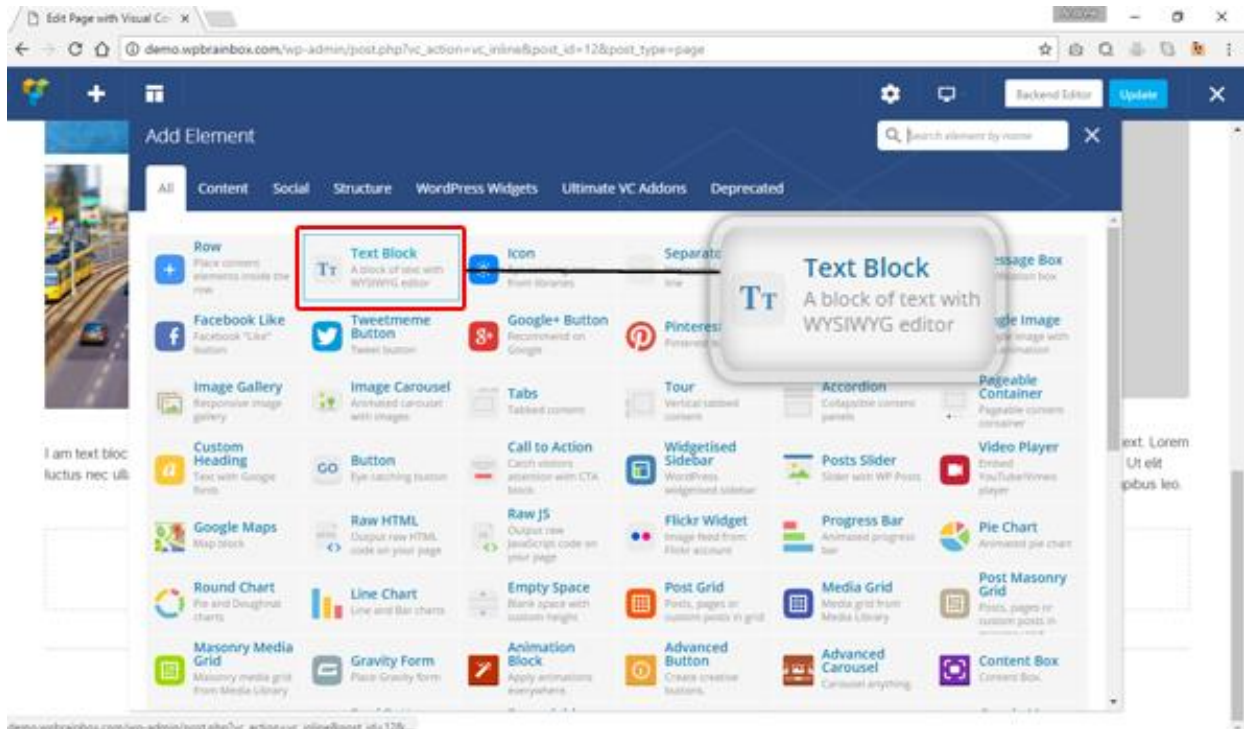

#### Step 2: Click the Orange Button

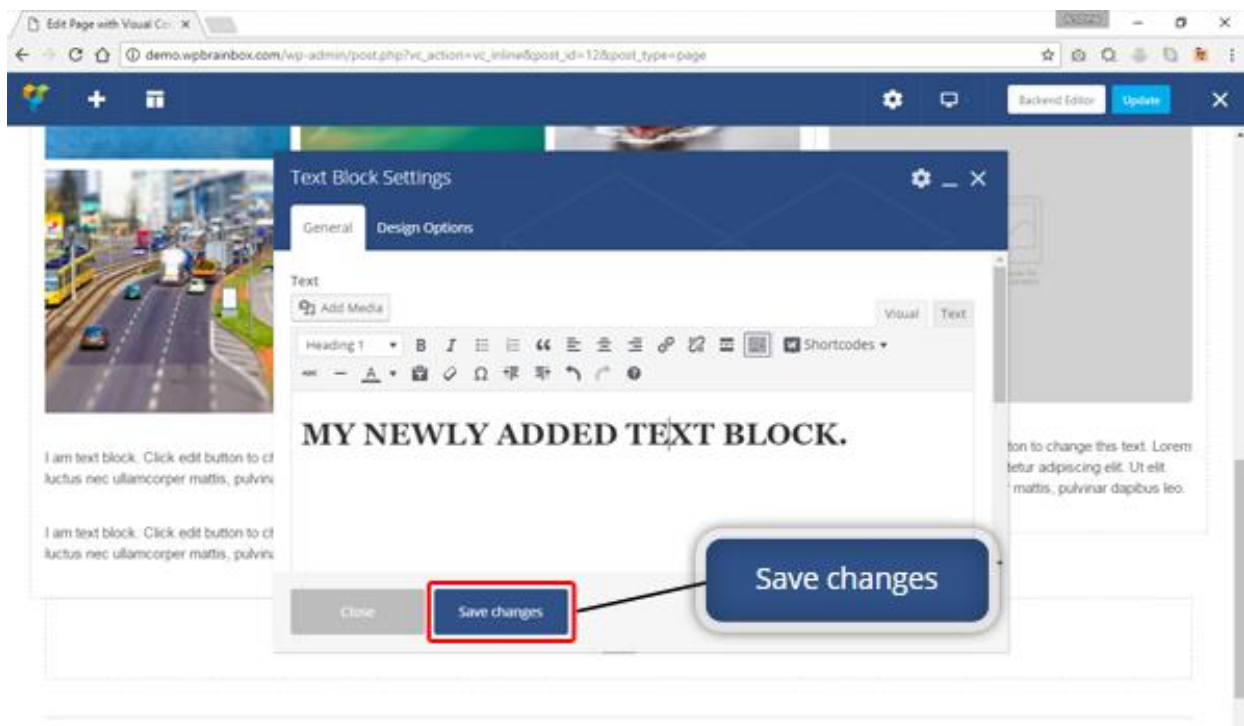

Let's try to add an element. To do that, hover your mouse over a column and you can see an **orange button** at the top.

### Step 3: Add a Text Block Element

Select the **Text Block** element. If you're having a hard time finding the Text Block element, you can either search it at the textbox located at the top-right side of the box or you can go to the **Content** tab to filter out some elements.

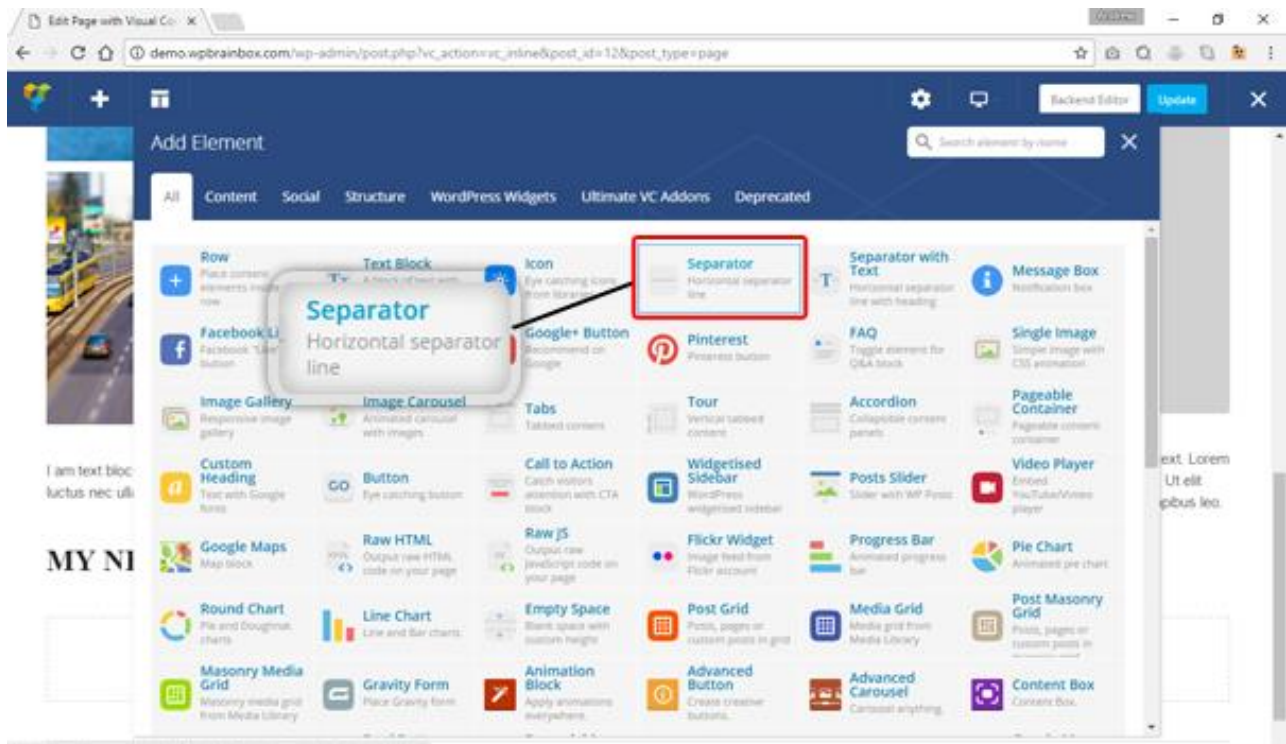

### Step 4: Edit Text Block

As you can see, our text block element is already added above the image. Once done with the changes, click **Save Changes** and close the text block settings.

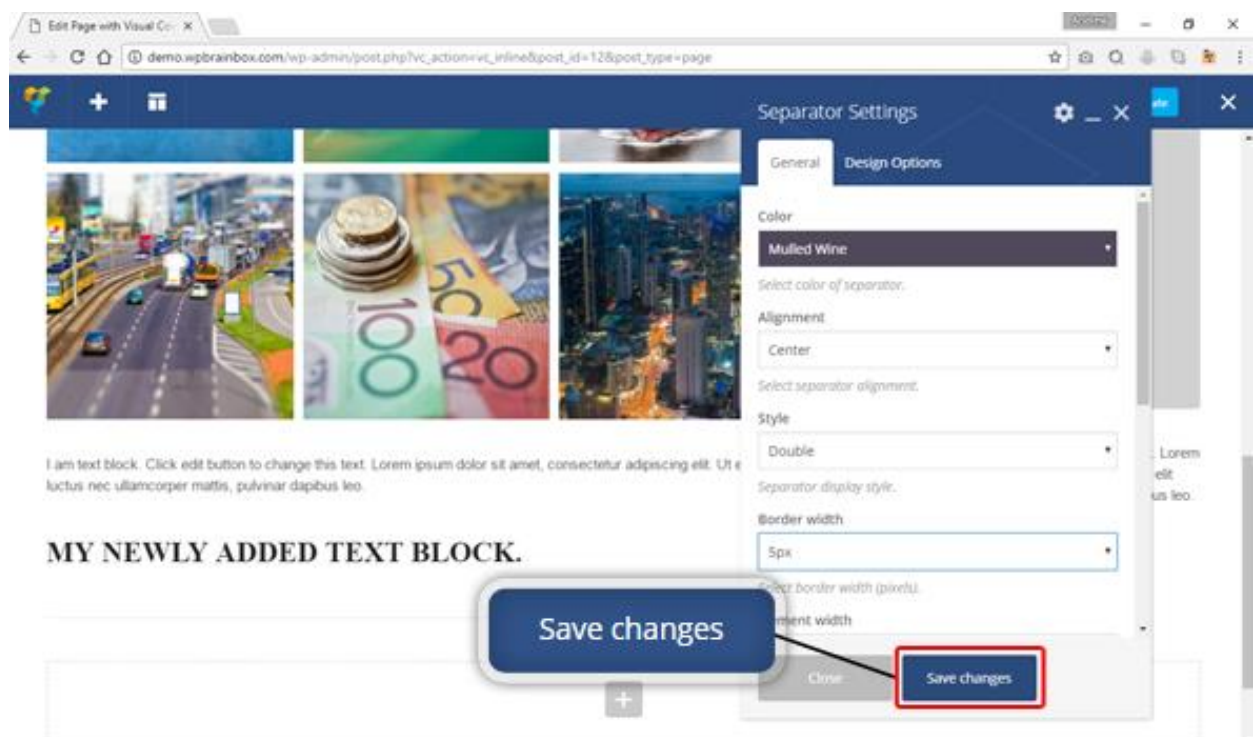

## Separator Element

### Step 1: Add a Separator Element

Let's try to add a **separator** element. To do that, same thing, click the **orange + button** of where you want it to insert and select the separator element. If you're having a hard time finding the Separator element, you can either search it at the textbox located at the top-right side of the box or you can go to the **Content tab** to filter out some elements.

### Step 2: Separator Element Setting

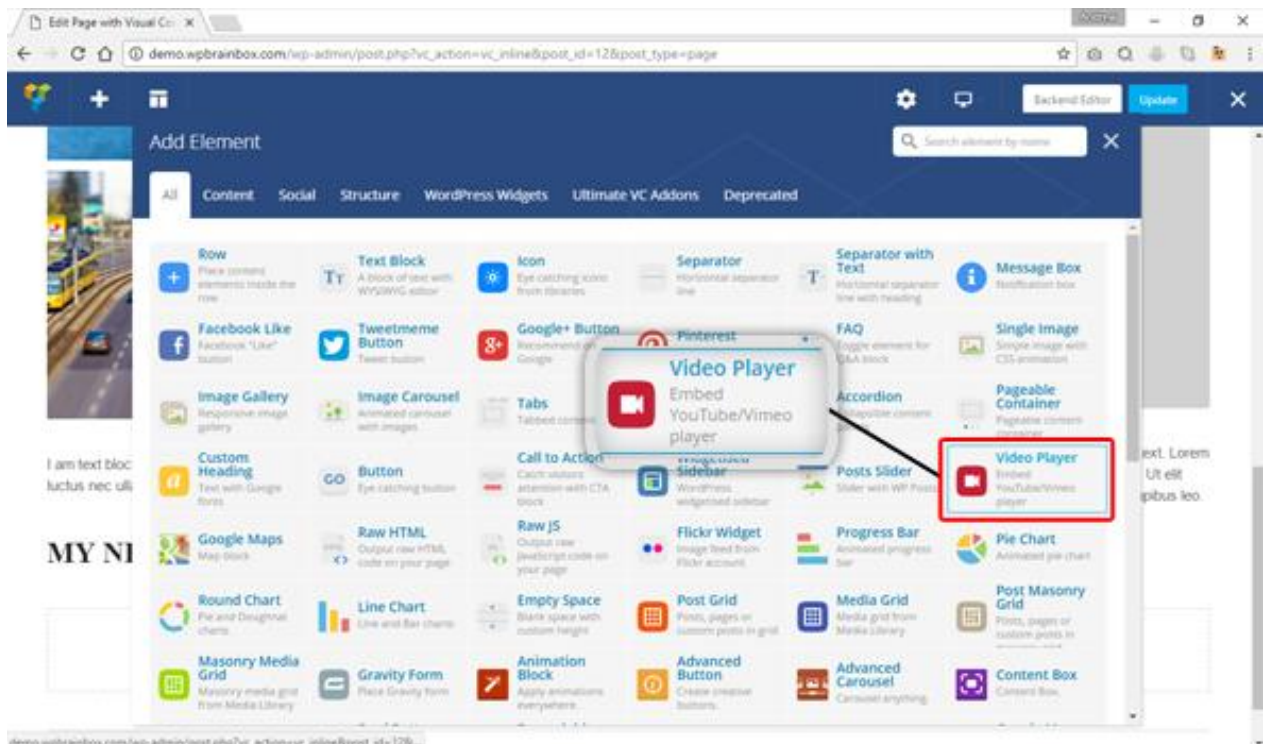

As you can see, the separator that we have added is already below the text that we've added a while ago. Once done with the changes, click on **Save Changes** and close to close the separator settings.

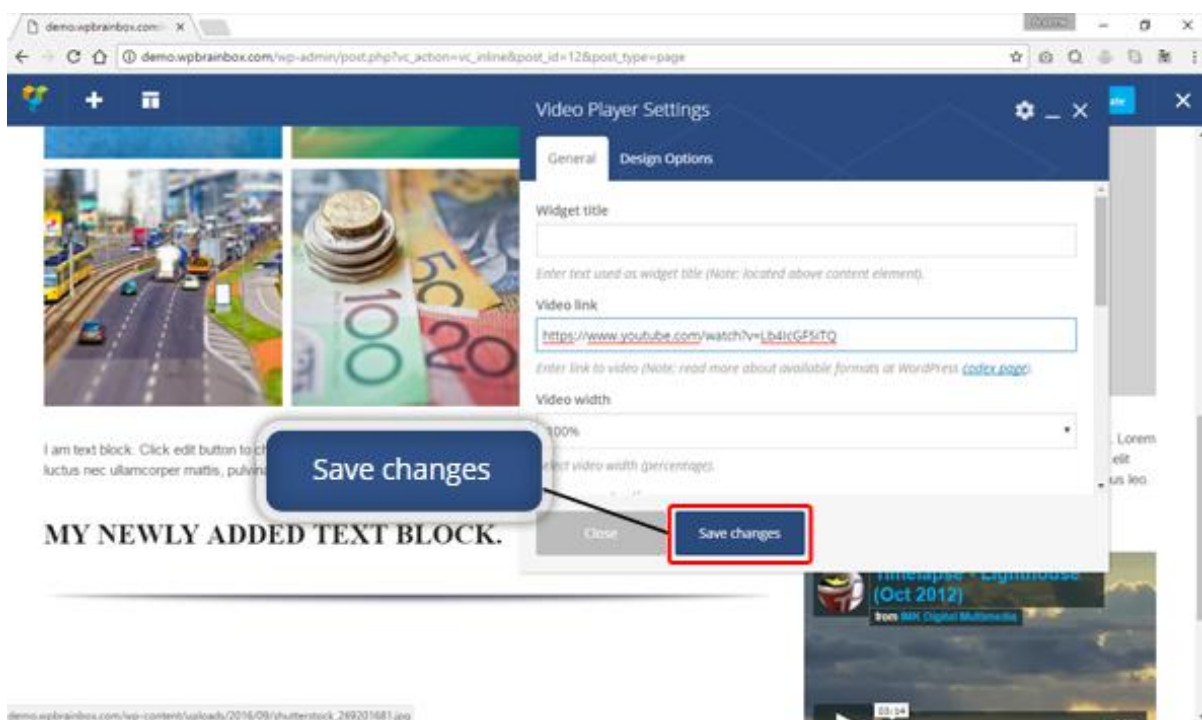

## Video Player Element

### Step 1: Video Player Element

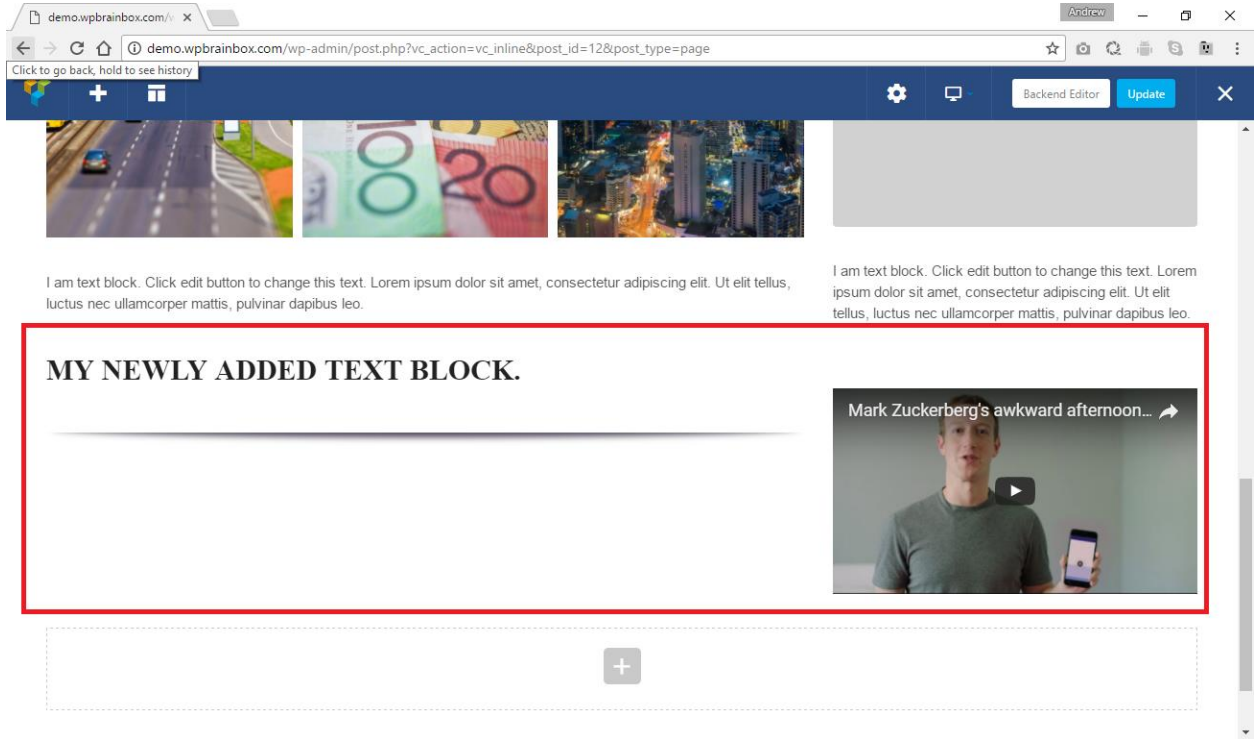

Let's try to add a video player element. To do that, same thing, click the **orange + button** of where you want it to insert and select the video player element. If you're having a hard time finding the video player element, you can either search it at the textbox located at the top-right side of the box or you can go to the Content tab to filter out some elements.

### Step 2: Video Player Setting

Paste your video link. Once done with the changes, click on **Save Changes** and close to close the video player settings.
